NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

March 31, 2005

Unaudited

1. BASIS OF PRESENTATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accompanying interim financial statements have been prepared in accordance with Canadian generally accepted accounting principles for interim financial information and accordingly do not include all disclosure required for annual financial statements. In the opinion of management, all adjustments (consisting of normal recurring accruals) considered for a fair presentation have been included. Operating results for the nine months ended March 31, 2005 are not necessarily indicative of the result that may be expected for the full year ending June 30, 2005.

These statements should be read in conjunction with the June 30, 2004 annual financial statements, including the accounting policies and notes thereto, included in the Annual Report for the year ended June 30, 2004. These financial statements reflect the same significant accounting policies as those described in the notes to the audited financial statements of Pacific Wildcat Resources Corp. for the year ended June 30, 2004.

2. Nature of Operations and Going Concern

Pacific Wildcat Resources Corp. ("the Company") is currently involved in mineral exploration and has not yet determined whether its mineral interests contain ore reserves that are economically recoverable. To date the company has not earned significant revenues and is considered to be in the exploration stage. The recoverability of the associated deferred costs is dependent upon the discovery of economically recoverable reserves, obtaining the necessary exploration permits, adequate financing to complete the exploration and development and future profitable production or net proceeds from the sale of the mineral concessions.

The Company needs working capital to meet minimum operating expenditures, as well as care and maintenance expenditures on mineral properties for the next year. If the Company is to advance its mineral properties or undertake other related activities, it will be necessary to obtain additional financing. There is no assurance that the Company will be able to do so in the future.

These consolidated financial statements have been prepared on a going concern basis which assumes the Company will be able to realize assets and discharge liabilities in the normal course of business for the foreseeable future. Accordingly, it does not give effect to adjustments, if any that would be necessary should the Company be unable to continue as a going concern and, therefore, be required to realize its assets and liquidate its liabilities in other than the normal course of business and at amounts which may differ from those shown in the financial statements.

INTERIM MANAGEMENT DISCUSSION AND ANALYSIS

Introduction

The following interim management discussion and analysis for Pacific Wildcat Resources Corp. ("Pacific Wildcat" or "the Company") has been prepared as of May 9, 2005. It is an update of the annual management and discussion filed on SEDAR in November 2004 and should be read in conjunction with the Company's unaudited, interim financial statements for the quarter ended March 31, 2005. The financial statements have been prepared in accordance with Canadian generally accepted accounting principles and all numbers are reported in Canadian dollars.

This discussion contains forward-looking statements that involve inherent risks and uncertainties. The reader is cautioned that actual results may differ materially from those anticipated in the forward-looking statements.

Additional information relating to the Company can be found on SEDAR at www.sedar.com.

Background

The Company has no new information to report since filing the second quarter management discussion and analysis.

Overall performance

The Company has no new information to report since filing the second quarter management discussion and analysis.

Results of operations

	Fiscal 2005, third quarter	Fiscal 2004, third quarter
Net (loss)	\$(18,426)	\$(25,787)
General and administrative costs	\$(18,426)	\$(25,787)
Stock option compensation	\$0	\$0
Write down property costs	\$0	\$0

In the third quarter of fiscal 2005, the Company had a net loss of \$18,426 or \$0.001 per share compared to a net loss of \$ 25,787 or \$0.002 per share for the third quarter of fiscal 2004. The following discussion explains variances in key components of these numbers.

The main reason for the smaller loss in the current quarter compared to the corresponding quarter in the previous year was a decrease in property acquisition and exploration activity. Management's focus during the third quarter of 2005 was to prepare a new business plan and seek out properties and / or projects falling within the objectives of this plan. No acquisitions were completed in the third quarter of 2005 nor was any exploration undertaken, both of which resulted in lower charges for management fees and professional services. This was partly offset by an increase in office costs attributable to a relocation of the head office.

Stock option compensation expense is a non-cash item. This expense relates to a derived dollar value placed on the benefit given by the Company upon granting of stock options. The derived value is based on statistical models which take into account the volatility of the stock, the risk free rate of return and the weighted average life of the options. Under a situation where the market is highly volatile and the stock, illiquid, the derived results may not be very meaningful. There were no options granted for the periods under review and thus no expense has been reported.

There were no property write downs or exploration expenditures in the third quarter of fiscal 2005.

The loss for the nine months ended March 31, 2005 was \$84,515 or \$0.006 a share as compared to \$47,687 or \$0.004 for the same period in fiscal 2004.

The main reasons for the higher loss in 2005 were higher property and corporate management fees in the first and second quarters and a \$15,046 write off associated with an option to acquire the Tumi Venado property in Peru. These increased costs were partly offset by lower professional fees as management turned its attention to the sale of Gwalia's entire shareholding in the Company, preparation of a new business plan and acquisition of new properties and / or projects. The Company has not made any acquisitions since withdrawing from the Tumi Venado option agreement in the first quarter of fiscal 2005.

Summary of quarterly results

Fiscal 2005	First quarter	Second quarter	Third quarter
Total revenues	\$0	\$0	\$0
Net income (loss)	(\$37,526)	(\$28,562)	(\$18,426)
Net income (loss) per share	(\$0.003)	(\$0.002)	(\$0.001)

Fiscal 2004	First quarter	Second quarter	Third quarter	Fourth quarter
Total revenues	\$0	\$0	\$0	\$0
Net income (loss)	(\$4,598)	(\$17,302)	(\$25,787)	(\$18,541)
Net income (loss) per share	(\$0.000)	(\$0.001)	(\$0.002)	(\$0.001)

Fiscal 2003	Fourth quarter
Total revenues	\$0
Net income (loss)	(\$9,852)
Net income (loss) per share	(\$0.000)

Notes:

- 1) Recurring revenue consists of interest income which is shown as a credit against expenses.
- 2) There were no discontinued operations or extraordinary items in the periods under review.
- 3) The basic and diluted income (loss) per share numbers were the same in each of the periods under review.

Quarterly results can vary significantly depending on whether the Company has realized any gain on the sale of investment, abandoned any properties or granted any stock options.

Liquidity and capital resources

There is no new information to report since filing the first quarter management discussion and analysis. The Company has no internal source of funding and relies on cash on deposit and the sale of treasury shares to provide cash, as required. The future of the Company depends on its ability to raise funds, as needed, to cover anticipated exploration, holding and general and

administrative expenses. There is no guarantee that the Company will be able to do this in a timely fashion.

At March 31, 2005 the Company had working capital of \$52,229 and no long-term debt. With respect to working capital, \$53,499 was held in cash and cash equivalents. These funds are sufficient to cover anticipated corporate and general and administrative expenses, at least for the balance of the 2005 fiscal year. Pacific Wildcat's funds on hand, whilst not committed, will be directed towards finding attractive new projects for the Company. Once a project has been identified for acquisition, additional funding will be required for subsequent expenditures.

Off balance-sheet arrangements

The Company has no new information to report since filing the first quarter management discussion and analysis.
