NOTES TO THE CONDENSED CONSOLIDATED INTERIMA FINANCIAL STATEMENTS (un-audited)

THREE MONTHS ENDED MARCH 31, 2013 AND MARCH 31, 2012

(Expressed in Canadian Dollars)

1. CORPORATION INFORMATION

Pacific Wildcat Resources Corp. ("PAW" or the "Company") is incorporated under the Business Corporations Act (British Columbia) and is primarily engaged in the acquisition and development of mineral properties located in Africa. The business of exploring for and mining of minerals involves a high degree of risk and there can be no assurance that current exploration programs will result in profitable mining operations. The Company's principal asset is the TML Licenses located in Mozambique and its ownership of 100% of Stirling Capital Limited and Cortec (Pty) Ltd., owners of a 70% interest Cortec Mining Kenya Limited, holder of the mining rights to the Mrima Hill Niobium and Rare Earth Property, located in Kenya.

The Company is listed on the TSX Venture Exchange, having the symbol PAW.V as a Tier 2 issuer and its corporate office and principal place of business is located at 110 – 2300 Carrington Road, West Kelowna, B.C. Canada, V4T 1G3.

2. BASIS OF PREPARATION AND GOING CONCERN

These condensed consolidated interim financial statements for the three month period ended March 31, 2013 and March 31, 2012 have been prepared in accordance with IAS 34 Interim Financial Reporting.

These condensed consolidated interim financial statements should be read in conjunction with the Company's 2012 annual financial statements which have been prepared in accordance with International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB") and Interpretations of the International Financial Reporting Interpretations Committee ("IFRIC").

The consolidated financial statements were authorized for issue by the Board of Directors on May 27, 2013.

These consolidated financial statements have been prepared on the historical cost basis.

The financial statements are presented in Canadian Dollars ("CDN"), which is also the Company's functional currency.

The preparation of financial statements in compliance with IFRS requires management to make certain critical accounting estimates. It also requires management to exercise judgment in applying the Company's accounting policies. The areas involving a higher degree of judgment or complexity, or areas where assumptions and estimates are significant to the consolidated financial statements are disclosed in Note 3.

Going Concern

The Company has not generated revenue from operations. The Company incurred a net loss of \$248,437 during the three months ended March 31, 2013, and as at March 31, 2013 has a working capital deficiency of \$2,703,156 and has accumulated deficit of \$14,754,190 and is expected to continue to incur losses. These conditions indicate the existence of material uncertainty which may cast significant doubt on the Company's ability to continue as a going concern. As the Company is in the exploration stage, the recoverability of the costs incurred to date on exploration properties is dependent upon the existence of economically recoverable reserves, the ability of the Company to obtain the necessary financing to complete the exploration and development of its properties and upon future profitable production or proceeds from the disposition of the properties and deferred exploration expenditures. The Company will periodically have to raise funds to continue operations and, although it has been successful in doing so in the past, there is no assurance it will be able to do so in the future.

Accordingly, no adjustments to the carrying values of the assets and liabilities have been made in these consolidated financial statements. Should the Company no longer be able to continue as a going concern, certain assets and liabilities may require restatement on a liquidation basis which may differ materially from the going concern basis.

2. BASIS OF PREPARATION AND GOING CONCERN (cont'd)

Basis of Consolidation

These consolidated financial statements include the accounts of:

	<u>% of ownership</u>	<u>Jurisdiction</u>	<u>Principal Activity</u>
Tantalum Mineracao e Prespeccao Limitada ("TML")	100	Mozambique	Exploration
Stirling Capital Limited ("Stirling")	100	United Kingdom	Holding
Cortec (Pty) Ltd. ("Cortec UK")	100	United Kingdom	Holding
Cortec Mining Kenya Limited ("CMK")	70	Kenya	Exploration

All subsidiaries are entities that we control, either directly or indirectly, where control is defined as the power to govern the financial and operating policies of an entity so as to obtain benefits from its activities. This control is evidenced through owning more than 50% of the voting rights or currently exercisable potential voting rights of a company's share capital. All inter-company transactions and balances including unrealized income and expenses arising from intercompany transactions are eliminated in preparing consolidated financial statements. For subsidiaries that we control, but do not own 100% of, the net assets and net profit (loss) attributable to outside shareholders are presented as amounts attributable to non-controlling interests in the consolidated statements of financial position and consolidated statements of comprehensive loss.

Standards, Amendments and Interpretations Not Yet Effective

Certain pronouncements were issued by the IASB or the IFRS Interpretations Committee that are mandatory for accounting years beginning after January 1, 2011 or later years. None of these is expected to have a significant effect on the consolidated financial statements, except for the following:

The following standards and interpretations have been issued but are not yet effective:

IFRS 9 Financial Instruments

IFRS 9 Financial Instruments is part of the IASB's wider project to replace IAS 39 Financial Instruments: Recognition and Measurement. IFRS 9 retains but simplifies the mixed measurement model and establishes two primary measurement categories for financial assets: amortized cost and fair value. The basis of classification depends on the entity's business model and the contractual cash flow characteristics of the financial asset. The standard is effective for annual periods beginning on or after January 1, 2015.

IFRS 10 Consolidated Financial Statements

IFRS 10 builds on existing principles by identifying the concept of control as the determining factor in whether an entity should be included within the consolidated financial statements of the parent company. The standard provides additional guidance to assist in the determination of control where this is difficult to assess. The Company is yet to assess the full impact of IFRS 10 and intends to adopt the standard no later than the accounting period beginning on January 1, 2013.

IFRS 11 Joint Arrangements

IFRS 11 describes the accounting for arrangements in which there is joint control; proportionate consolidation is not permitted for joint ventures (as newly defined). IFRS 11 replaces IAS 31 Interests in Joint Ventures and SIC 13 Jointly Controlled Entities — Non-Monetary Contributions by Venturers. The Company is yet to assess the full impact of IFRS 11 and intends to adopt the standard no later than the accounting period beginning on January 1, 2013.

IFRS 12 Disclosures of Interests in Other Entities

IFRS 12 includes the disclosure requirements for all forms of interests in other entities, including joint arrangements, associates, special purpose vehicles and other off balance sheet vehicles. The Company is yet to assess the full impact of IFRS 12 and intends to adopt the standard no later than the accounting period beginning on January 1, 2013.

THREE MONTHS ENDED MARCH 31, 2013 AND MARCH 31, 2012

2. BASIS OF PREPARATION AND GOING CONCERN (cont'd)

IFRS 13 Fair Value Measurement

IFRS 13 aims to improve consistency and reduce complexity by providing a precise definition of fair value and a single source of fair value measurement and disclosure requirements for use across IFRSs. The requirements, which are largely aligned between IFRSs and US GAAP, do not extend the use of fair value accounting but provide guidance on how it should be applied where its use is already required or permitted by other standards within IFRSs or US GAAP. The Company is yet to assess the full impact of IFRS 13 and intends to adopt the standard no later than the accounting period beginning on January 1, 2013.

IFRIC 20 Stripping Costs in the Production Phase of a Surface Mine

In IFRIC 20, the IFRS Interpretations Committee sets out principles for the recognition of production stripping costs in the balance sheet. The interpretation recognizes that some production stripping in surface mining activity will benefit production in future periods and sets out criteria for capitalizing such costs. While the Company is not yet in the production phase, the Company is currently assessing the future impact of this interpretation.

There are no other IFRSs or IFRIC interpretations that are not yet effective that would be expected to have a material impact on the Company.

3. SIGNIFICANT ACCOUNTING JUDGMENTS, ESTIMATES AND ASSUMPTIONS

The Company makes estimates and assumptions about the future that affect the reported amounts of assets and liabilities. Estimates and judgments are continually evaluated based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. In the future, actual experience may differ from these estimates and assumptions.

Judgments

Information about critical judgements in applying accounting policies that have the most significant risk of causing material adjustment to the carrying amounts of assets and liabilities recognized in the financial statements within the next financial year discussed below:

i) Title to Mineral Property Interests

Although the Company has taken steps to verify title to mineral properties in which it has an interest, these procedures do not guarantee the Company's title. Such properties may be subject to prior agreements or transfer and title may be affected by undetected defects.

ii) Exploration and Evaluation Expenditures

The application of the Company's accounting policy for exploration and evaluation expenditures requires judgment in determining whether it is likely that future economic benefits will flow to the Company.

If, after exploration and evaluation expenditures are capitalized, information becomes available suggesting that the carrying amount of an exploration and evaluation asset may exceed its recoverable amount the Company carries out an impairment test at the cash generating unit or group of cash generating units level in the year the new information becomes available. The Company has determined that there are currently no indicators of impairment.

iii) Income Tax

The Company has not recognized a deferred tax asset as management believes it is not probable that taxable profit will be available against which a deductible temporary differences can be utilized.

iv) Accounting of acquisition

Judgment is required in determining whether a transaction or an event is a business combination or an asset acquisition. Significant areas requiring the use of management judgment relate to determining if the acquired entity has the economic resources available using the existing system or infrastructure to create economic benefits.

3. SIGNIFICANT ACCOUNTING JUDGMENTS, ESTIMATES AND ASSUMPTIONS

v) Accounting Estimates

Significant judgment is required in determining the fair values in an acquisition; the consideration is measured at fair values of assets given, liabilities incurred or assumed and equity instruments issued by the Company in exchange for control. The fair value of the equity instruments issued requires determining the appropriate share price, valuation model and appropriate inputs such as volatility and market interest rates.

In measuring the valuation between liability and equity components, the Company measures the present value of the convertible note payable by using discount rates that is estimated based on market interest rates at the time of issuance. The effective interest rate is used to calculate the interest implicit in the convertible note payable and allocates the residual value to the equity component. As of March 31, 2013, the Company has not bifurcated the liability and equity components on the convertible notes payable as the fair values on the equity component are immaterial and all proceeds have been allocated to the liability component.

4. ACQUISITION OF SUBSIDIARY

The Company completed acquisition of 100% of the issued and outstanding shares of Stirling Capital Limited and Cortec (PTY) Ltd. (the "Acquisition") on September 12, 2012 (collectively referred to as the "UK Subsidiaries"). The acquisition was made pursuant to the July 22, 2010 Conditional Purchase Agreement (the "Acquisition Agreement") with Finebrook Investments Pty Ltd, as trustee for the O'Sullivan Superannuation Fund ("O'Sullivan Fund") and Dunross Capital Ltd ("Dunross"). The UK Subsidiaries collectively have a 70% interest in Cortec Mining Kenya, a private Kenyan company that holds three prospecting licences in Kenya. The Acquisition was completed in two tranches of 7% and 93%.

On February 28, 2011 the Company closed the initial tranche of the Acquisition and acquired 7% of the issued share capital of each of Stirling and Cortec UK (the "Initial Closing"), to be held in escrow pending completion of the final tranche of the Acquisition, with the second tranche of 93% of the issued share capital of Stirling and Cortec UK to be acquired upon the satisfaction of certain condition precedents (the "Final Closing").

On December 14, 2011 and April 22, 2012 the Company and the Owners executed Amending Agreements wherein the parties agreed to revise the schedule and timing of the payments to be made on the final closing of the Acquisition. The overall total consideration to be paid to the Owners by PAW did not change.

The key terms of the Amended Agreements, which received acceptance of the TSX Venture Exchange on January 5, 2012, were as follows:

- 1) PAW will make cash payment of AUS\$3,000,000 (paid) to the Owners on the earlier of:
 - two business days after the completion by PAW of a financing to raise minimum gross proceeds of \$4,000,000 (completed) and January 31, 2012.
- 2) The issuance to the Owners on January 3, 2012 of such number of common shares of PAW which when aggregated with the shares already issued to the Owners in connection with the Acquisition, does not exceed 19.9% of the non-diluted number of the issued and outstanding PAW shares as at that date, provided such Closing Shares issued does not exceed the aggregate number of 24,702,352 shares (issued 20,194,768 on January 5, 2012).
- 3) The final closing will take place on May 7, 2012.

Upon meeting all the remaining closing conditions, which the parties shall use their best endeavors to achieve, the parties have agreed to complete the Acquisition by May 7, 2012 (extended by further amendment) through the issue of the balance of the Closing Shares of approximately 4,500,000 shares and the balance of cash due of approximately \$10,960,147 to the Owners on the final closing in accordance with the terms and conditions of the Acquisition Agreement.

4. ACQUISITION OF SUBSIDIARY

On July 3, 2012, subject to Exchange approval the Company and Vendors entered into a further agreement ("Amending Agreement") to settle the previously agreed cash consideration of \$10,960,147 (AUS\$10,579,830) that is payable to the Vendors on the closing of the Acquisition by a combination of the issuance of common shares and a convertible promissory note.

On July 12, 2012 The Company received the Exchange's conditional acceptance to amend the terms of the Acquisition Agreement. Accordingly the Company issued to the Vendors 4,507,584 PAW Shares at an issue price of \$0.08 per share in accordance with the Acquisition Agreement. The overall total value of the consideration paid to the Vendors by the Company on completion of the Acquisition did not change. The Amending Agreement remained subject to the Company's shareholders approval (received on September 10, 2012).

On September 12, 2012 the Company completed the Final Closing of the Acquisition of the remaining 93% of the issued share capital of the UK Subsidiaries by issuing to the Vendors an aggregate of 92,592,244 common shares of valued at \$8,333,302 (issue price of \$0.09 per share) and issued to the Vendors a convertible promissory notes in the aggregate amount of \$775,000 (See Note 12 Convertible Notes Payable). All securities issued to the Vendors on the final closing were subject to a hold period expired on January 13, 2013.

The Company determined that the UK Subsidiaries and CMK did not meet the definition of a business pursuant to IFRS and accordingly the purchase has been accounted for as an asset acquisition, with the primary asset acquired being a 70% interest in mineral properties located in Kenya.

The following sets forth the purchase price allocation to the assets acquired and liabilities assumed:
